**RE: Neighborhood Notice of Stormwater Drainage Project  
PN 3426 – Johnson Drive and Mund Road Storm Drainage Improvements**

Dear Property Owner:

The City of Shawnee is in the preliminary phases of design for the removal and replacement of existing deteriorated storm sewer systems in your neighborhood. Attached is a map of the affected stormwater system. This will involve working in close proximity to existing homes, but the project is crucial for the City to continue to provide safe and effective storm drainage for all residents.

To construct this project, the City will need to first acquire survey of the area to design the improvements. **Surveyors will be out in the field starting next week (beginning September 26<sup>th</sup>) to gather data for developing construction plans.**

The City will likely need to acquire easements where storm drainage work will extend beyond the right-of-way or existing easements. This project is being funded by the City of Shawnee Stormwater Utility Fee and is scheduled for construction to begin in spring 2017.

A Neighborhood Informational Meeting will be held prior to construction, but this has not been scheduled at this time.

**If you have any questions concerning this drainage improvement project, please call Mike Gregory at 913-742-6312.**

Sincerely,

THE CITY OF SHAWNEE

Michael Gregory, P.E.  
Stormwater Manager
